AROUND THE TOWN

Mrs. J. E. Stauffer will not receive on Thursday, May 7th.

The Banks and schools will be closed on Friday (Arbor Day).

Mrs. J. M. Hysmith will not receive again until fall.

Postmaster and Mrs. Wm. Hunsperger returned from a visit to friends in Lethbridge on Sunday last.

Mr. and Mrs. J. J. Falk of the Sunnyslope hotel paid Didsbury a visit on Thursday last, the first time for over a year.

Mrs. J. Gilmore, of Lethbridge, is a visitor with her mother, Mrs. Wm. Mueller. Mrs. Gilmore expects to return home on Saturday.

Mrs. H. Howson of Calgary who was the guest of Mrs. J. S. Daum over the week end, returned to her home on Monday.

The Presbyterian Ladies Aid will hold their Exchange at Mr. Studer's store on Saturday, May 9th, at 3 p.m. Fresh bread, buns, cakes, also beans and brown bread for sale.

Messrs. Lloyd and Nash, of Northampton, West Australia, were visitors in town on Wednesday, sizing up the district with a view to locating here if suited.

Mr. and Mrs. L. J. Kalbfleisch left for their new home at Three Hills on Tuesday. Their many friends in town and district will wish them every success in their new venture.

A dance will be held in the Opera House on Friday evening, May 8th. Didsbury orchestra in attendance. Lunch served. All cordially invited. Dancing will commence at 9 p.m. sharp.

Rev. J. S. Daum will preach his farewell sermon at Westcott on Sunday morning, at 10.30. Mr. Daum will soon take charge of the first Ev. church in Edmonton.

German Lutheran church services are to be held in the Lutheran church 6 miles west and 2 miles south of Didsbury every Sunday, at 10.30 a.m. On the 1st and 3rd Sunday services are conducted by the local pastor, Theo. Dannenfeldt.

It is reported that a young daughter of Mr. and Mrs. A. Ruby of Carstairs, was severely scalded on Saturday last by being pushed into a tub of hot water by her small brother in play. It is to be hoped the little one will soon recover.

C. Hiebert, who has been staying in this district for the last two or three weeks, left on Thursday night last for the Peace River country. Mr. Hiebert took with him two cars of settlers effects and Geo. Hong Foo, another old time Didsbury resident, accompanied him in the position of cook for the outfit.

All members of King Hiram Lodge No. 21, A.F. & A.M., G. R.A., are requested to attend a business meeting to be held in the High School building on Tuesday, May 12th, at 6.30 p.m. sharp. Grand Master, M. Wor. Bro. J. S. Blair, will be present. All members are urgently requested to attend this meeting.

For Baking Success —This Oven Test

Success on some baking days can be expected no matter what flour you use. But constant success is rarer. It can be assured in only one way. The miller must select his wheat by oven test.

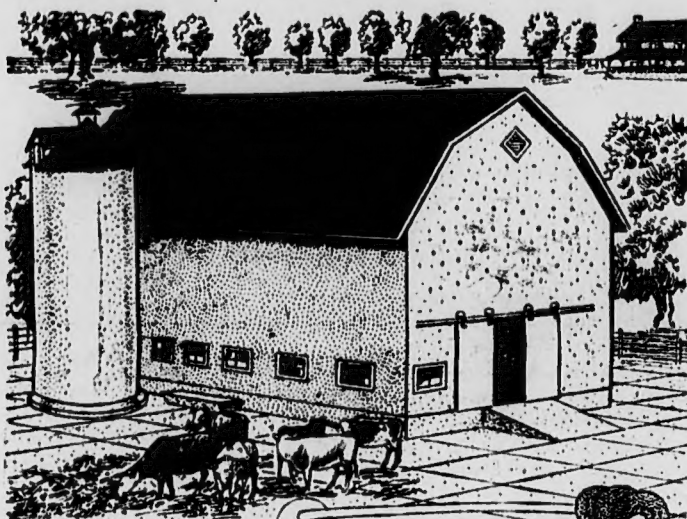

So from each shipment of wheat we take ten pounds as a sample. We grind this into flour. Bread is baked from the flour.

If this bread is high in quality, large in quantity, we use the shipment from which it came. Otherwise we sell it. Constant baking success comes as a matter of course from flour bearing this name

Build Concrete Barns and Barnyards

YOU will find that they are best
at first and cheapest in the end.

Concrete buildings cannot burn and many dollars are saved in lower insurance rates. They need practically no repairs and never need painting.

Concrete barnyards make the best kind of a feeding-floor and save many dollars in feed bills, as your stock gets every particle that you feed to them.

Send for this free book "What the Farmer Can Do With Concrete." It shows just how to build your own concrete barn, feeding-floor or any other building that you may need.

Poor Consolation
"Why so gloomy looking, Madam, dear?"
"Jack has thrown me over for a girl with more money."
"Oh, there, cheer up! That's no sign that he doesn't love you."

Heard in a Dog Store
"Yes, madam; he's a skye terrier."
"Isn't he just heavenly?"
"He's the star of our collection, madam—the dog star, I might say."

SHILOH
quickly stops coughs, cures colds, and heals the throat and lungs. 25 cents.

Possibly He Was
Smith (on steamer in midocean)—going across, old chap?
Brown—Yes. You?—New York Times.

Inspiration
"You can't write verse on some subjects. Now, for instance, what poetry is there in a pork chop?"
"I can see you've never been real hungry."

The Fixin's

A kindergarten teacher, after explaining to her much interested class that birds have feathers, bears have fur, sheep have wool, etc., asked the question: "Now, who can tell me what oysters have?"
A bright little girl, very eager to recite, answered: "Crackers."—National Monthly.

Meant "Who Is That?"

Excitable party (at telephone)—Hello! Who is this? Who is this, I say?
Man at Other End—Haven't got time to guess riddles. Tell me yourself who you are.

With Dark Stage Mostly

Maud—Jack Slowboy has been calling on you regularly now for two years, hasn't he?
Marie—Yes; he evidently thinks papa is running a continuous performance house.

Proudly he walked up to his betrothed and drew from his pocket a small morocco case. Opening it, he took out a ring—a single diamond—and placed it on her tapering finger. "It's a very small diamond!" she said, and paused. Then, "And not very brilliant, either."
"Ah, sweetheart, but love is blind." Raising her limpid eyes to his, she said: "Yes, dear, but not stone blind!"

Minard's Liniment Relieves Neuralgia.

A Boy Needs His Father

A prominent welfare worker recently summed up his experience and observation in the simple words: "A boy needs his father." The whole world knows that a girl needs her mother, but there seems to be some apathy on the question of a boy's constant need of his father. Comparatively few fathers appear to realize that providing food, shelter, clothes, good schooling and money for a boy is not a full charge of the obligation a father owes to his son. A boy needs the encouragement, the inspiration and the comradeship of a father who hasn't forgotten that he himself was once a boy.—Los Angeles Tribune.

Time Has Tested It—Dr. Thomas'

Electric Oil has been on the market upwards of thirty years and in that time it has proved a blessing to thousands. It is in high favor throughout Canada and its excellence has carried its fame beyond the seas. It has no equal in the whole list of liniments. If it were double the price it would be a cheap liniment.

Firewood

Cutting firewood in summer, when it can be done much easier and cheaper in winter, is a waste of valuable time. First clean up old logs, rails, broken boards, etc., around the buildings. Perhaps somewhere on the farm there are two fields that could profitably be made into one, and the old rail fence between them converted into good posts or into fuel. In the wood lot there may be dead or fallen trees that should be removed and made into firewood before the live trees are touched.—J. F., in Conservation.

Nora was applying for a place as cook, and when asked for a reference presented the following:
"To whom it may concern:
"This is to certify that Nora Cole has worked for us a week and we are satisfied."—Everybody's Magazine.

REPLENISH YOUR BLOOD IN THE SPRING

Just now you are feeling "out of sorts"—not your usual self. Quite exhausted at times and cannot devote real energy to your work. Sleep does not rest you and you wake up feeling "all tired out." Perhaps rheumatism is flying through your muscles and joints, or may be your skin is disfigured by rashes, boils or pimples. Headaches, twinges of neuralgia, fits of nervousness, irritability of temper and a disordered stomach often increase your discomfort in the spring.

The cause—winter has left its mark on you. These troubles are signs that your blood is poor and watery, that your nerves are exhausted. You must renew and enrich your blood at once and restore tone to your tired nerves, or there may be complete breakdown. The most powerful remedy for these spring ailments in men, women and children is Dr. Williams' Pink Pills for Pale People, because these pills cleanse the bad blood and strengthen weak nerves.

New, rich, red blood—your greatest need in spring—is plentifully created by Dr. Williams' Pink Pills, and with this new, pure blood in your veins you quickly regain health and increase your strength. Then your skin becomes clear, your eyes bright, your nerves strong and you feel better, eat better, sleep better, and are able to do your work.

Begin your spring tonic treatment today for the blood and nerves with Dr. Williams' Pink Pills—the Pills that strengthen.

These Pills are sold by most dealers, but do not be persuaded to take "something just the same." If you can't get the genuine Pills from your dealer they will be sent you by mail, post paid, at 50 cents a box or six boxes for \$2.50 by writing The Dr. Williams' Medicine Co., Brockville, Ont.

Hank—If your watch doesn't go, why do you carry it?

Restoring Rubber

Articles of rubber frequently lose their elasticity through oxidation and yet the material may be restored to its original condition by a simple process. Soak the article in a mixture of one part of ammonia to two parts pure water.

This is said to be particularly well adapted to the restoring of rubber bands, rings and small rubings which are ready to become dry and brittle.

To Cure a Cold in One Day

Take LAXATIVE BROMO QUININE Tablets. Druggists refund money if it fails to cure. E. W. GROVE'S signature is on each box. 25c.

The Albanian Flag

The new Albanian flag has made its first appearance in Vienna. The eagle, the principal heraldic emblem of the Albanian arms, does not appear on the flag, which differs from the prince's banner in consisting of longitudinal stripes of red and black and red and white, with a five pointed star in the middle.

Attacked by Asthma.—The first fearful sensation is of suffocation, which hour by hour becomes more desperate and hopeless. To such a case the relief afforded by Dr. J. D. Kellogg's Asthma Remedy seems nothing less than miraculous. Its help is quickly apparent and soon the dreadful attack is mastered. The asthmatic who has found out the dependability of this sterling remedy will never be without it. It is sold everywhere.

"Now," said the new husband, "I am your captain, and you must let me command you through life."
"You have a dual capacity," replied the clever widow, "because you are my captain and my second mate in one."

COUNT TEN! BAD COLD RELIEVED FIGURE THREE HOURS—COLD CURED

Never a Failure With Catarrhazone;
it Cures Completely

Don't snifle and sneeze with a nasty cold. Kill it at once by "Catarrhazone." It's the surest thing on colds ever known; simply knocks them out in one time. The medicated vapor of CATARRHAZONE spreads through all parts of the breathing organs, and its beneficial action is felt instantly. Doesn't matter whether the cold is in the head, chest or lungs, Catarrhazone will reach it and cure it quickly.

Easy to use—you bet it is—not a single drug to take because you simply breathe in the mos. healing and soothing of pinkey vapors that come

from the wonderful Catarrhazone inhaler.

"I can cheerfully testify that Catarrhazone is simply a magical cure for colds," writes P. F. Clement of Augusta. "For days last winter my head was completely filled up with cold. My eyes ran water. I sneezed and coughed constantly. I took many medicines. I was sick of the sight of them. Finally, I tried Catarrhazone. Its effect was magical. It soothed the inflamed membrane, stopped the sneezing, and cured in no time. I never met anything to kill a cold like Catarrhazone."

Get the complete \$1.00 outfit; it does the work quick. Small size 50c; trial sample size 25c. Dealers everywhere

organized again and all teams who care to play them will address the manager, Carl Arneson of Bergen.

The men who are running the oil drill on the big Red Deer River drilled through a 25 foot vein of coal. Some vein.

Mr. Skogh who has been clearing for Severson and Olsen, is now clearing for J. F. McKnight, and the way he slashes right and left isn't slow.

The highlanders have began to work their ground for the spring work.

Mr. Gehard Pearson of Bergen who has been after his horses out east of Didsbury, has arrived at last with his bunch.

The people of Elkton have a Rural Route from Didsbury. What is the matter of Highland having one.

50,000 Bible Class Men in Parade

This is to be one of the features of the Fourteenth Convention of the International Sunday School Association to be held in Chicago, June 23-30, 1914. The fifty thousand men will all be Bible students. Train loads of men are to go into Chicago for the parade. The Alberta delegation will be in the line. This parade is to be the greatest testimony to the dynamic influence of the Bible the world has ever witnessed.

Alberta's share of the fifty thousand classes is at least one hundred and fifty classes. There are ninety five classes now enrolled in the office of the Alberta Sunday School Association, Calgary, and the General Secretary, F. E. Werry, has sent out an appeal to all parts of the province asking for the enrollment of Organized Adult Bible Classes. All that is required to be numbered with the fifty thousand classes in America is to apply to Mr. Werry for an International Certificate of Recognition, but without this certificate a class cannot be counted.

Council Meeting

The Council met on Monday night in the Council chamber, Mayor Atkins, Councillors Chambers, Sinclair, Osmond, Reed, Solicitor Patterson and Clerk St. Clair present. Councillors Stark and Moyle absent.

Several communications were read but there was nothing of importance in the bunch and they were filed.

Accounts in the hands of the Secretary and O'Kd were passed: Bromo Mfg. Co. \$1.80; Atlas Lumber Co. \$15.95; Alberta Telephone \$27.30; H. W. Chambers \$1; Didsbury Pioneer \$62.50; E. Fisher, caretaking (Council chamber), \$2.50.

Councillor Osmond, chairman of Sanitation, stated that proper warning had been given to the citizens regarding manure on laneways by the sanitary constable, W. F. Sick, and where such manure had not been removed the chairman had ordered it done by the town and charged against the property according to bylaw. Some tenants had however refused to pay for the removal and consequently the owners of the property would have to pay for same. He wished to know if this was according to the wishes of the Council. The Council decided unanimously that the chairman should be supported in his actions.

Constable Sick was present and stated that he was having considerable trouble in collecting some of the dog taxes, and as some of these dogs were somewhat vicious he was unable to impound them because he had already been bitten once or twice. He wanted instructions in the matter from the Council.

He was instructed by the Council to lay an information against parties owning dogs and refusing to pay taxes on same when the penalty in the bylaw regarding same would be imposed if they then refused to pay.

Messrs. J. Reed and A. Z. Weber were present as a deputation from the Didsbury Band and Orchestra in regard to getting some assistance from the town to keep the organizations going.

Mr. Reed put the matter very plainly and stated that because of the band and orchestra giving their services free to organizations in the town was one reason why they were in the condition they were financially. Also that their conductor, Mr. H. Gathercole, was an excellent and capable leader and that it would be a loss to the town to lose his services. He also dwelt upon the fact that these organizations were helping to keep some of the young fellows from the pool rooms and off the streets and also that it was for the benefit of the town as a whole to support in some manner the public musical organizations for their benefit to the people in a musical sense as well as for the advertising the town received from same. He asked the Council if they considered a grant at all to make whatever conditions seemed best to them and the musical organizations would abide by them. Mr. Reed also stated that he would personally give five times the amount it would cost any ratepayer by the town giving a grant.

Mr. Alf. Weber then gave the financial standing of the band and also gave a lot of other information to the Council in regard to leadership and conducting the affairs of the bands. He stated that over \$200 had been paid by the band last year for uniforms and there was still a small balance owing on same, and that if anything happened and the organization disbanded the uniforms would be handed over to the town as town property. He also showed the Council that it was the Conductor's salary which was behind.

The Council discussed the matter thoroughly and while it was felt that cash was somewhat scarce that as these organizations had to receive help in some manner and that it would not be a fair proposition to ask one section of the ratepayers, the business men,

to put their hands in their pockets for a donation this year, and that the whole of the ratepayers should come to their assistance the following motion was put:

Moved by Councillors Osmond and Chambers that the salary of Conductor or Gathercole of the Didsbury Band and Orchestra at the rate of \$5 per week be paid for the balance of the year 1914, in quarterly installments, the band to give one concert per week from the 24th May, weather permitting, and the Conductor to be under orders from the Council.

The Mayor called for the vote and all present voted aye except one Councillor. Nays being called for no one responded which made the vote unanimous.

The Council then adjourned.

Keep bran, grit, shell, ground oats, green feed and fresh, clean water before your chicks at all times. Chicks should have a supply of animal food or skim milk. Never allow milk to remain in vessels till it sours.

SYNOPSIS OF CANADIAN NORTH-WEST LAND REGULATIONS.

THE sole head of a family, or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the District. Entry by proxy may be made at the office of any Local Agent of Dominion Lands (not sub-agent), on certain conditions.

Duties—Six months residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres, on certain conditions. A habitable house is required in every case, except when residence is performed in the vicinity.

In certain districts a homesteader in good standing may pre-empt a quarter-section alongside his homestead. Price \$3 per acre. Duties—Six months residence in each of six years from date of homestead entry (including the time required to earn homestead patent) and 50 acres extra cultivation. The area of cultivation is subject to reduction in case of rough, scrubby or stony land after report by Homestead Inspector on application for patent.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may take a purchased homestead in certain districts. Price \$3 per acre. Duties—Must reside six months in each of three years, cultivate 50 acres and erect a house worth \$300.

W. W. CORY, Deputy of the Minister of the Interior. N.B.—Unauthorized publication of this advertisement will not be paid for. —37085.

The economical decoration of your home is largely a matter of knowing the right finishes to use.

For the exterior of your home there is no better paint than Sherwin-Williams Paint (Prepared) SWP. It is made of the purest of materials, combined in correct scientific proportions with the aid of special machinery. The result is a far spreading, long wearing paint in liquid form, all ready to apply.

For floors, the easiest finish to apply is S-W Inside Floor Paint, and this gives particularly good results even on old worn or discolored floors. On a good hardwood floor the best finish is S-W Mar-not, a hard-drying waterproof floor varnish.

For the walls of your home, while water paints, such as S-W Decotint, give pleasing effects, they have not the durability which means true economy, Sherwin-Williams Flat-tone is unquestionably the best paint for walls. It is an oil paint that dries with a soft, flat, velvety finish. It is very durable and can be washed with soap and water. S-W Flat-tone comes in twenty-four beautiful colors, the selection of expert decorators.

For the varnishing of interior work such as wainscoting, doors, furniture, etc., we recommend S-W Excello Varnish, or S-W Kopal, an old fashioned, general purpose varnish, which can be used inside and outside and is just the thing for varnished woodwork in kitchens, bathrooms, or for front doors, porch ceilings, etc. For floors use S-W Mar-not, a special waterproof floor varnish, will not turn white when water is spilled on it, nor does it show scratches and heel marks readily.

We can take care of your every paint and varnish need. Drop in and discuss your paint and varnish problems with us.

THE WINDOW AT THE WHITE CAT

By Mary Roberts Rinehart

(Copyright)

(Continued)

She watched me suspiciously while I straightened the nails she had bent and lifted the boards. The article that had smashed under the vigor of Miss Letitia's seventy years had been a teapot of some very beautiful ware. I have called just now from my study to ask what sort of ware it was, and the lady who sets me right says it was crown Derby. Then there were rows of cups and saucers and heterogeneous articles in the same material that the women folk seemed to understand. At the last, when the excitement seemed over, they found a toast rack in a lower corner of the box, and the "Ohs!" and "Ahs!" had to be done all over again.

There was not the slightest clemency to the sender; but, while Miss Letitia rated Hepple loudly in the kitchen and Bella swept up the hall, Margery voiced the same idea that had occurred to me.

"If—if Aunt Jane were all right," she said tremulously, "it would be just the sort of thing she loves to do."

"I'm not pretending to know what took Jane Maitland away from this house in the middle of the night," said Miss Letitia. "She was a good bit of a fool, Jane was. She never grew up. But if I know Jane Maitland, she will come back and be buried with her people if it's only to put Mary's husband out of the end of the lot. And another thing, Knox. I told you the last time you were here that I hadn't been robbed of any of my pearls, after all. Half of those pearls were Jane's, and she had a perfect right to take forty-nine of them if she wanted. She—the told me she was going to take some, and it slipped my mind."

I believe it was the first lie she had ever told in her hard, conscientious old life. Was she right? I wondered. Had Miss Jane taken the pearls, and if she had, why?

CHAPTER XVIII.**Wardrop's Story**

Wardrop got back about 5, and as Miss Letitia was in the middle of a diatribe against white undergarments for colored children Margery and he had a half hour alone together. I had

ECZEMA STARTED IN A RASH

Suffered Terribly. From Eyebrows Spread to Neck, Chest and Arms. Completely Cured by Cuticura Soap and Ointment.

Briercrest, Sask.—"When my baby boy was about four months old he suffered terribly from eczema. The trouble started in a rash and was very itchy. It made him very cross and fretful. I noticed the rash first in his eye-brows. From there it spread to his neck, chest and arms. When he would scratch, it would make sores."

"I got medicine but it did no good. I tried different remedies without result. At last I got a sample of Cuticura Soap and Ointment and after using them for two days I noticed a change. I then purchased a full-sized cake of Cuticura Soap and Cuticura Ointment. I would give him a hot bath with the Cuticura Soap every night afterward applying the Cuticura Ointment. Before I had used half of the Cuticura Soap and Ointment he was completely cured." (Signed) Mrs. H. L. Stromberg, May 29, 1913.

The regular use of Cuticura Soap for toilet and bath not only tends to preserve, purify and beautify the skin, scalp, hair and hands, but assists in preventing inflammation, irritation and clogging of the pores, the common cause of pimples, blackheads, redness and roughness, yellow, oily, mothy and other unwholesome conditions of the skin. Cuticura Soap and Ointment are sold by druggists and dealers everywhere. For a liberal free sample of each, with 32-p. book, send post-card to Potter Drug & Chem. Corp., Dept. D, Boston, U. S. A.

W. N. U. 997

known, of course, that it must come, but under the circumstances, with my whole future existence at stake, I was vague as to whether it was colored undergarments on white orphans or the other way round.

When I got away at last I found Bella waiting for me in the hall. Her eyes were red with crying, and she had a crumpled newspaper in her hand. She broke down when she tried to speak, but I got the newspaper from her, and she pointed with one work-hardened finger to a column on the first page. It was the announcement of Mrs. Butler's tragic accident and the mystery that surrounded it. There was no mention of Schwartz.

Bella told me that she had lived with Mrs. Butler since she was sixteen and had only left when the husband's suicide had broken up the home. I could get nothing else out of her, but gradually Bella's share in the mystery was coming to light.

Wardrop was looking better that afternoon than he had when I saw him before, but the news of Mrs. Butler's approaching death and the manner of her injury affected him strangely. He had seen the paper, like Bella, and he turned on me almost fiercely when I entered the library. Margery was at the window.

"Is she conscious?" Wardrop asked eagerly, indicating the article in the paper.

"No, not now; at least, it is not likely."

He looked relieved. Then he paced the room nervously. His next action showed the development of a resolution, for he pushed forward two chairs for Margery and myself.

"Sit down, both of you," he directed. "I've got a lot to say and I want you both to listen. When Margery has heard the whole story she probably will despise me for the rest of her life. I can't help it. I've got to tell all I know, and it isn't so much after all. You didn't fool me yesterday, Knox. I knew what that doctor was after. But he couldn't make me tell who killed Mr. Fleming, because, before God, I didn't know."

"I have to go back to the night Miss Jane disappeared—and that's another thing that has driven me desperate. Will you tell me why I should be suspected of having a hand in that when she had been a mother to me? If she is dead she can't exonerate me; if she is living, and we find her she will tell you what I tell you—that I know nothing of the whole terrible business."

"I am quite certain of that, Wardrop," I interposed. "Besides, I think I have got to the bottom of that mystery."

Margery looked at me quickly, but I shook my head. It was too early to tell my suspicions.

"The things that looked black against me were bad enough, but they had nothing to do with Miss Jane. I will have to go back to before the night she went away, back to the time Mr. Butler was the state treasurer and your father, Margery, was his cashier."

"Butler was not a business man. He let too much responsibility lie with his subordinates, and then, according to the story, he couldn't do much anyhow against Schwartz. The cashier was entirely under machine control, and Butler was neglected. You remember, Knox, the crash when three banks, rotten to the core, went under and it was found a large amount of state money had gone, too? It was Fleming who did it. I am sorry, Margery, but this is no time to mince words. It was Fleming who deposited the money in the wrecker banks, knowing what would happen. When the crash came Butler's sureties to save themselves confiscated every dollar he had in the world. Butler went to the penitentiary for six months on some minor count, and when he got out, after writing to Fleming and Schwartz protesting his innocence and asking for enough out of the fortune they had robbed him of to support his wife, he killed himself at the White Cat."

Margery was very pale, but quiet. She sat with her fingers locked in her lap and her eyes on Wardrop.

"It was a bad business," Wardrop went on wearily. "Fleming moved into Butler's place as treasurer and took Lightfoot as his cashier. That kept the lid on. Once or twice when there was an unexpected call for funds the treasury was almost empty, and Schwartz carried things over himself. I went to Plattsburg as Mr. Fleming's private secretary when he became treasurer, and from the first I knew things were even worse than the average state government."

"Schwartz and Fleming had to hold together. They hated each other, and the feeling was trebled when Fleming married Schwartz's divorced wife."

Margery looked at me with startled, incredulous eyes. What she must have seen confirmed Wardrop's words, and she leaned back in her chair limp and unnered. But she heard and comprehended every word Wardrop was saying.

"The woman was a very ordinary person, but it seems Schwartz cared for her, and he tried to stab Mr. Fleming shortly after the marriage. About a year ago Mr. Fleming said another attempt had been made on his life with poison. Things were not going well at the treasury. Schwartz and he crowd were making demands that were hard to supply and behind all that Fleming was afraid to go out alone at night. He employed a man to protect him, a man named Carter, who had been a bartender in Plattsburg. When things began to happen here in Manchester he took happen to the home as a butler."

"Then the Borough bank got shaky. If it went down there would be an ugly scandal, and Fleming would go, too. His notes for half a million were there, without security, and he dared not show the cancelled notes he had with Schwartz's endorsement."

"I'm too proud of the rest of the story, Margery." He stood looking down at her. "I was engaged to marry a girl who was everything on earth to me, and—I was private secretary to the state treasurer, with the princely salary of such a position."

"Mr. Fleming came back here when the Borough bank threatened failure and tried to get money enough to tide over the trouble. A half million would have done it, but he couldn't get it. He was in Butler's position exactly, only he was guilty and Butler was innocent. He raised a little money here, and I went to Plattsburg with securities and letters. It isn't necessary to go over the things I suffered there. I brought back \$110,000 in a package in my Russian leather bag. And—I had something else."

(To be Continued)

There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally in doses from 10 drops to a tablespoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any cure it fails to cure. Send for circulars and testimonials.

Address: F. J. CHENEY & CO., Toledo, Ohio. Sold by Druggists, 75c. Take Hall's Family Pills for constipation.

Did Not Believe in Banks

Gold and notes to the value of \$65,000 were found in the house of an elderly maiden lady who died the other day in an unpretentious dwelling in the east end of Glasgow.

The old lady had lived on a very simple plan. She was friendly with her neighbors but never gave an indication that she was any wealthier than others in the same neighborhood, who were all of the working class.

Some of the money was found in an old-fashioned purse, but there was no miserly effort at hiding the money, which was scattered about in different parts of the house. She had often declared that she did not believe in banks.

The Test

Nurse—Well, doctor, must we give him up?

Doctor—Not until he can't sign a cheque.

EAGER TO WORK

Health Regained by Right Food

The average healthy man or woman is usually eager to be busy at some useful task or employment.

But let dyspepsia or indigestion get hold of one, and all endeavor becomes a burden. A woman writes:

"A year ago, after recovering from an operation, my stomach and nerves began to give me much trouble."

"At times my appetite was voracious, but when indulged, indigestion followed. Other times I had no appetite whatever. The food I took did not nourish me and I grew weaker than ever."

"I lost interest in everything and wanted to be alone. I had always had good nerves, but now the merest trifle would upset me and bring on a violent headache. Walking across the room was an effort and prescribed exercise was out of the question."

"I had seen Grape-Nuts advertised, but did not believe what I read, at the time. At last, when it seemed as if I were literally starving, I began to eat Grape-Nuts."

"I had not been able to work for a year, but now after two months on Grape-Nuts I am eager to be at work again. My stomach gives me no trouble now, my nerves are steady as ever, and interest in life and ambition have come back with the return to health."

Name given by Canadian Postum Co., Windsor, Ont. Read "The Road to Wellville," in pkgs. "There's a Reason."

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

Oil Field in Pacific Ocean

Unique among the oil fields of the world is the Summerland group of wells in California, which extend out into the Pacific ocean. There are 141 producing wells in this group, which is situated about eighteen miles from Santa Barbara. These wells are drilled out in the ocean just off the coast and 100,000 barrels are taken from the oil sands underlying the ocean bed every year. This interesting spectacle of derricks built out into the sea is visible from the train on the way from Los Angeles to San Francisco.—Engineering and Mining Journal.

Practical

"Yes, my friend, I was about to marry the countess when I suddenly learned that she spent more than \$12,000 a year on her dress-maker."

"Then what did you do?"

"Married the dressmaker."

A Safe Pill for Suffering Women.

The secluded life of women which permits of little healthful exercise, is a fruitful cause of derangements of the stomach and liver and is accountable for the pains and lassitude that so many of them experience. Parmelee's Vegetable Pills will correct irregularities of the digestive organs and restore health and vigor. The most delicate woman can use them with safety, because their action, while effective, is mild and soothing.

Seed is Their Currency

An ancient system of banking is still in active and successful operation in Southern Italy. This is that of the monti frumentari, or grain storage warehouses. In these are stored large quantities of seed, which is given out to farmers upon demand without payment. After the harvest the farmers return to the warehouse the amount of seed they have received, plus interest in seed. Thus do the farmers become established agriculturists without the necessity of borrowing money.

Piles Cured in 6 to 14 Days

Druggists refund money if PAZO OINTMENT fails to cure itching, Blind, Bleeding or Protruding Piles. First application gives relief. 50c.

Biggest Windmill Has Steel Sails

It is reported that a wind motor claimed to be the largest of its kind in the world, has lately been brought into use at Harlingen (Friesland) for a polder (tract of lowland redeemed from the sea by high embankments) with an area of 1,850 acres. This machine, which has steel sails and is mounted on a steel tower, has a diameter of 50 feet, and is said to be capable of dealing with 64,000 to 70,000 cubic feet of water an hour. It is an interesting fact that first the wooden wind mills were replaced by explosion motors, but now again, the steel wind motors are said to be the more and more employed, especially in the draining of "polders."

Peevish, pale, restless, and sickly children owe their condition to worms. Mother Graves' Worm Expeller will relieve them and restore health.

Beans. Instead of Beef

The chief chemist of the department of agriculture, Washington, sends out a message to housewives about the high cost of living. It is authoritative and cheering. "The prospect need not alarm the average salaried worker," he says, speaking of the cost of beef. "There are good substitutes for meat, and the one at the head of the list is beans."

Minard's Liniment for sale everywhere.**Home-Grown Rug**

Two beautiful fur rugs were on the floor, of a pale fawn color, and suggestive of doe skins. But, as it proved they were not from the woods, they were from the farm, and had originally been on the backs of some very pretty Jersey calves. When in the course of events the calf had no further use for his coat, it was sent to be properly tanned, then it was lined and laid upon the floor.

New Varsity Building

At a meeting of the board of governors of the University of Saskatchewan at Saskatoon the plans for the new residence building which, when completed, will cost \$250,000, were approved.

"I am an old man—and many of my troubles never happened."—ELBERT HUBBARD

THE white hair and wrinkled faces of our busy men and women tell of doubt, fear and anxiety—more than disease or age. Worry plays havoc with the nervous system—so that digestion is ruined and sleep banished. What oil is to the friction of the delicate parts of an engine—

DR. PIERCE'S**Golden Medical Discovery**

is to the delicate organs of the body. It is a tonic and body builder—because it stimulates the liver to vigorous action, assists the stomach to assimilate food—thus enriching the blood, and the nerves and heart in turn are fed on pure rich blood. Neuralgia "is the cry of starved nerves for food." For forty years "Golden Medical Discovery" in liquid form has given great satisfaction as a tonic and blood maker.

Now it can be obtained in tablet form—from dealers in medicine or send 50 one-cent stamps for trial box. Write R. V. Pierce, Buffalo.

DR. PIERCE'S PLEASANT PILLARS
Batters constipation, restores the liver, and bowels. They're to take as candy.

A WONDERFUL DISCOVERY

An eminent scientist, the other day, gave his opinion that the most wonderful discovery of recent years was the discovery of Zam-Buk. Just think! As soon as a single thin layer of Zam-Buk is applied to a wound or a sore, such injury is insured against blood poison! Not one species of microbe has been found that Zam-Buk does not kill!

Then again. As soon as Zam-Buk is applied to a sore, or a cut, or to skin disease, it stops the smarting. That is why children are such friends of Zam-Buk. They care nothing for the science of the thing. All they know is that Zam-Buk stops their pain. Mothers should never forget this.

Again. As soon as Zam-Buk is applied to a wound or to a diseased part, the cells beneath the skin's surface are so stimulated that new healthy tissue is quickly formed. This forming of fresh healthy tissue from below is Zam-Buk's secret of healing. The tissue thus formed is worked up to the surface and literally casts off the diseased tissue above it. This is why Zam-Buk cures are permanent.

Only the other day Mr. Marsh, of 101 Delorimier Ave., Montreal, called upon the Zam-Buk Co. and told them that for over twenty-five years he had been a martyr to eczema. His hands were at one time so covered with sores that he had to sleep in gloves. Four years ago Zam-Buk was introduced to him, and in a few months it cured him. To-day—over three years after his cure of a disease he had for twenty-five years—he is still cured, and has had no trace of any return of the eczema!

All druggists sell Zam-Buk at 50c. box, or we will send free trial box if you send this advertisement and a 1c. stamp (to pay return postage). Address Zam-Buk Co., Toronto.

Little Jack—Then why can't an automobile go two weeks without gasoline?

PLAN TO BUILD A WESTERN EMPIRE

A SCHEME TO FURTHER COLONIZE WESTERN CANADA AND DEVELOP ALL RESOURCES

Suggested That the Advertising of Western Canada be Centred in One Organization, Having as its Slogan "Ten Million For Western Canada in the Next Ten Years."

Arrangements are being completed for a convention in the city of North Battleford, to which there is being invited representatives of the Dominion government, the governments of the various provinces, from the various railway companies, the cities and towns and in addition, all those who are interested in the promulgation of and carrying out of this scheme, which is to build an empire with a population of 10,000,000 people at least, and the accomplishment of that end in ten years. This colonization convention will be a most interesting meeting and the outcome will be awaited with interest by one and all. The North Battleford board of trade has issued an announcement in reference to this convention as follows:

Western Canada must have a population of 10,000,000 people within the next ten years. This, and the way to accomplish it, is interesting news, and the very adoption of such a slogan as 10,000,000 in ten years is a splendid goal to aim for.

Providing the men and women of Western Canada will devote their attention and energies towards a comprehensive and united scheme for the establishment of an empire, with a population of 10,000,000 people, bounded on the east by the great lakes and the Hudson Bay ports, and on the west by the Pacific ocean with its splendid harbors, and keeping in mind continuously the opening of the Panama canal, it will be accomplished.

We have all the facilities at our disposal for the building of the grandest empire which either ancient or modern history has ever known. The opportunities are waiting at our hands. It remains for us to go in and possess the land. True, this would seem to have been the burden of our efforts for some years, but as all growth brings with its new phases, involves new conditions, presents new ideas, it would seem that the time is at hand when we should set ourselves to the accomplishment of even a greater era of development than has gone by in the last 25 years. Heretofore, we have been laying the foundation, constructing railways, building harbors, and bringing into the country merely an advance guard of colonization. The day of the pioneer is past, and the pioneer has done his work well. We have now entered upon ten years of nation building.

Method of Scheme

For the building of this empire—the creation of a population of 10,000,000 in Western Canada in ten years—it is suggested that there be formed the Western Canada Colonization and Development League, whose purpose shall be the keeping before the public of the world the many advantages, resources and possibilities of Western Canada as a whole. Up to the present, Western Canada has been advertised largely by the railways, each of which gave prominence to the development of the area with success of their lines or proposed lines. Every city has been advertising its own attractions. The governments of the various provinces have been advertising their individual attractions. It is now suggested that the advertising of Western Canada be centred in one organization.

It is recognized that many of the sources of advertising and development referred to would desire to continue to a certain extent their own advertising, for the direct benefit of the specific areas which they controlled, or were interested in, but it is believed that one and all of these organizations and individuals will readily recognize advantages which will accrue through their devoting a portion of their present advertising appropriations to the achievement of this great end. There would also be advantages in impressing upon the peoples of the world "Western Canada." Let them once become attracted to the west, then let them take their choice as to where they settle. As a matter of fact, with 10,000,000 people in the country, it will make very little difference where they locate.

Customs Ports and Outports

The following outports of custom and warehousing port: have just been enacted by order-in-council. Edson, Alberta, under the survey of Edmonton; Wainwright, Alberta, under the survey of Edmonton; Newport, B.C., under the survey of Vancouver. The customs outport of Medicine Hat has been established as a customs port, as has also the outport of Prince Albert.

Canada's Water Power

Canada's water power is estimated at 16,000,000 horsepower, equal to an annual production of 36,700,000 tons of coal; only 1,016,521 horsepower has been developed.

FEWER RECRUITS FOR ARMY

Continued Activity in Trade and Emigration Have Affected Scheme of Recruiting

The annual report on recruiting for the British army for the year ending September 30, 1913, published as a parliamentary paper, shows that the number of recruits who joined the regular army, excluding re-enlistments, and colonial corps recruits, was 28,091, a decrease of 2,225 as compared with the previous year, while the figures for the special reserve were 18,454, a decrease of 2,937.

The general results, it is observed, have been disappointing. Whilst the recent increased competition by the royal navy, and the facilities for obtaining work provided by the government Labor exchange, have had an adverse effect, the poor results achieved are attributed mainly to continued activity in trade and emigration. 178,468 male British subjects emigrated from the United Kingdom during 1913, and, though probably only a small proportion were men who would have enlisted, yet the report declares the men who emigrate in most cases leave vacancies in the field of employment at home to be filled, perhaps, by one who in other circumstances would have entered the army.

Whilst of late there have been signs of slackening in Canada's appetite for unskilled laborers, it is discouraging from a recruiting point of view to note that Australia has inaugurated a scheme offering special facilities for immigration of lads between 16 and 20, the very ages between which the majority of recruits now join the special reserve and the regular army.

WESTERN CANADA NEWS

"That none but British subjects and ratepayers be employed on city work until further notice, preference being given to married men; efficiency to be conceded in the interest of the city." This is a copy of a resolution passed by the Vancouver city council recently.

The ratepayers of Calgary are shortly to vote on the erection of three bridges, the expenditure for which will total \$512,000. The individual bridges will cost: Centre street, across Bow, \$330,000, plus \$45,000 for Sunnyside approach; Ninth street west, across Bow, \$60,000; Fourth street west, across Elbow, \$77,600.

Winnipeg has appointed a traffic inspector for the city in the person of R. P. Lewis, who will in future devote all of his time to the improvement of the street railway system in that city. Although the system is owned by a private company, the city is of the opinion that efficient supervision will pay for the new department out of the five per cent. profit which goes to the city from the street railway revenues.

At Winnipeg an inspector from the city engineer's department will in future be in charge of the moving of houses and other buildings across car lines and will see that the work of replacing the wires is properly done. All expenses in connection with the work done, including a fee for the inspector's time, will be charged to the contractor.

Vancouver is to have the largest telescope in the world this summer, the Dominion government having decided to erect this instrument at the Meteorological observatory, Point Grey. The new instrument will have a focal length of fifty feet and the diameter of the lens 10 feet—20 inches larger than the one at Mount Wilson, California, which is 100 inches in diameter.

An enterprising real estate and shipping firm in Vancouver has secured a large model of the Panama canal which is being used for advertising purposes. It shows clearly the famous Gatun lock and the system of lighthouses along the canal zone.

CIGARETTE CURE

Dozen or More Toronto Ladies Trying to Get Rid of Habit

A dozen or more Toronto ladies are taking the cigarette cure which is being administered by doctors who are associated with the Boys' Dominion. They do not take the treatment at the branches of the institution, where the boy smokers are attended to, but go to the residences of the medical attendants.

All the lady patients are reported as good, self-respecting, respectable women, although they smoke and they all sincerely desire to get rid of the habit. They are of good position and character and some are well known in society. In only a very small degree are the patients girls, most of the number being wives and mothers. Originally there were merely one or two, but recommendations of the success met with has caused a daily increase.

Flour Export to Germany

Canada's exports of flour to Germany have more than doubled during the past six years. For the year ended March 31, 1913, the export amounted to \$4,478,043 barrels, with a value of nearly \$20,000,000. In 1908 the amount was 1,962,340 barrels, valued at \$8,444,954.

HOW TO SECURE SETTLERS IS PROBLEM

RESTRICTIONS PLACED ON IMMIGRATION FROM EUROPE BY AUTHORITIES

J. S. Dennis Says There is Only One Field Now Altogether Free, and That Majority of Settlers Will Come to Canada This Year From United States.

J. S. Dennis, head of the natural resources department of the C.P.R., addressed a large gathering of business men at a smoker given by the board of trade at Lethbridge recently. He referred to the wonderful development of the west in the forty-two years of his experience of it, when Winnipeg had only 1,100 people, and the district between that post and Victoria, was known on the map as the American desert.

Urban development, however, had been far in advance of agricultural development. This brought the people of the west to face resulting conditions. The "hot-air" period had passed, and the problem to be solved at the present time was that of agricultural development for laying permanently, the foundation of the Western Canada to be as optimistic looked forward to it. The solution of this problem had developed a new policy with the C.P.R. Up to two years ago they were merely sellers of land. Now they were colonizers, in that no land was sold without an obligation that residence should be taken up and agricultural operations undertaken. How to get the people was the problem.

Difficulties in Europe

In the British Isles there was small opportunity for obtaining the desired agricultural immigration. In Europe the policy was handicapped in that, to get the class of immigrants, the company had to meet with restrictions by the authorities. Holland, Denmark and Belgium were practically the only countries open. In Germany and Austria an immigration policy was made impossible. In Norway it was limited, and in Sweden, prohibited. The company had, therefore, in fact only the field of the United States entirely available.

Mr. Dennis dwelt on the importance of irrigated lands and the necessity for individual effort in preventing any of the wrong impression which carried against them. It was difficult to obtain immigrants from irrigated areas and 60 per cent. of the farmers, who came over from the United States knew nothing about irrigated areas.

Encourage Mixed Farming

The speaker urged the necessity on boards of trade of enlisting the sympathy and working with the farmers as the only means for the desired development. To encourage mixed farming was the solution of the agricultural problem, and to this end the C.P.R. in its ready-made farm policy extended purchase payments to twenty years and advanced \$1,000 worth of live stock to those who intended going in for extensive farming. He looked to little agricultural immigration from the British Isles this year. Though immigration would not be diminished he thought the bulk would arrive from the United States.

TRAIN LOAD OF COAL DAILY

That Was the Lethbridge Record for 1913, According to Correct Figures

In the year 1913, the province of Alberta produced 4,306,346 tons of coal. Lethbridge, including the district within one hundred miles of this city, produced 3,300,000 tons, or 66 per cent. of the total output of the province.

Allowing forty tons to the car, the output of the Crow's Nest Pass for the year in carloads, was 70,000 or 1,400 trainloads, allowing 2,000 tons to each train. Lethbridge alone provides tonnage for 372 trains each year, on the basis of production.

The total number of men employed in the coal mines of Alberta was 8,068 and of this number, the mines in the Pass including Lethbridge and Taber, employed 4,368, or 54.2 per cent. of the total. Of the total of 2,815,455 tons mined in the district, the Pass mines produced 1,774,796 tons; Lethbridge, 746,452 tons; Taber, 206,459 tons; Pincher Creek, 77,005 tons; Bow Island, 12,095 tons, and Milk River 2,499 tons.

Many Homestead Entries

It appears there has been a rush of business at the Weyburn Dominion lands office during the last eight months, during which period the revenue has amounted to \$75,752, or an average of more than \$9,000 per month. The cost of operation has been \$450 per month, or 5 per cent. of the receipts. The eight months show that 355 homestead entries have been made in the Weyburn district, and that fees for 142 pre-emptions have been paid in.

School Population of Quebec

Quebec province is full of children. This year, according to government figures, 370,200 children attend the Catholic schools and 52,400 the Protestant schools. There are no "public" schools so called in that province. A school registration of 422,615 out of a total population of 2,000,000 seems to be pretty fair.—Canadian Courier.

AFTER 22 YEARS

Rev. Pere Edouard Gouy Reaches Edmonton After Voluntary Exile Among Indians

"It seems good to be in civilization once more, after twenty-two years of voluntary exile among the Indians of the north," the speaker was the Rev. Pere Edouard Gouy, father superior of St. Isidore mission at Fort Smith, who arrived in Edmonton by rail from Athabasca, after being away from the city for nearly a quarter of a century.

In the flowing black robes of the Oblate fathers, a large jet cross and bronze crucifix tucked in his girdle, a heavy untrimmed dark beard beginning to show white streaks of grey, but with the healthy tan of the north on his face, Father Gouy presents a striking figure.

Sees His First Auto

"I saw at Athabasca an auto for the first time," said Father Gouy. "Such things were not dreamed of when, as a young man of 25, I left for the north to work among the Indians. Edmonton was then a village. Of course I have kept track of its growth through the newspapers, although we received papers only during the summer, by canoe, winter mail carriers by dog teams confining themselves to letters."

Is Going to France

Father Gouy will rest in Edmonton a few days, and then after a short trip to St. Albert for the purpose of visiting Bishop Legault, he will start for Nantes, France, where he will visit his aged parents. Before his return he will go to Rome for an audience with Pope Pius, and expects to arrive again in Edmonton next September, when he will go once more to Fort Smith, perhaps to spend the rest of his life in his self-sacrificing labor for the education and the uplifting of the Indians.

Soo Locks Busier Than Panama

No less than 72 million tons of freight passed through the locks of Sault Ste. Marie, on the Great Lakes last year. These locks, which connect Lake Superior with the lower lakes are now a feature of our inland navigation system, for through them passes nearly 75 per cent. of the entire lake traffic.

To increase the facilities for handling the traffic on the American side, a lock of exceptional size is under construction, as an addition to the two existing locks, while excavation has been commenced for a fourth lock.

The traffic to be handled is enormous, and navigation is stopped by ice for or about four months each year (ordinarily from Dec. 15 to April 15). Consequently, it is of the utmost importance to handle the vessels promptly and enable them to make as many trips as possible during the navigation season.

In 1905, congress authorized the widening of the canal, while in 1907 an appropriation was made for the construction of a third lock with an independent canal. The canal widening was completed in 1911, and the new lock and canal are expected to be in operation at the beginning of navigation in 1915, or possible earlier.

It was subsequently considered desirable to duplicate the traffic capacity as to provide against interruption to traffic in the event of any accident at the third lock. This duplication is a feature of the locks on the Panama canal, where the traffic will be much less in volume than at "the Soo." The additional lock was authorized by congress in 1912, and work is now in progress on the excavation.

With all this work completed, there will be the unique spectacle of two parallel and adjacent canals with four parallel single-lift locks.—Engineering News.

West's First Flax Factory

The appalling waste of valuable flax fibre each year is emphasized in the statement that, in 1914, the flax fields of the west have produced over two million tons of flax straw, representing four hundred thousand tons of fibre, and that all of this wealth of raw material is now in ashes and scattered to the four corners of those broad western plains.

There is, however, one little spot on the plains where flax straw is not regarded as rubbish, to be burned and got rid of as soon as the harvest is over. Away southwest of Saskatoon, on the Goose Lake branch of the Canadian Northern, at the bright little town of Rosetown, flax straw is being used for purposes of manufacture in the first flax factory to be established anywhere in Western Canada.—Norman Lambert in Industrial Canada.

Medal For Bravery

R. S. McKenzie, Indian agent, Kenora, after considerable delay and correspondence, is in receipt, through the department of Indian affairs at Ottawa, of a bronze medal, beautifully engraved, awarded by the Royal Canadian Humane association, to Alexander Mandamin, a pupil of the Cecilia Jeffray boarding school, aged 16 years, for his heroic act in the rescue of Charles E. Aitkin from drowning in Shoal lake in December, 1913. This medal will be presented to Alex Mandamin in a suitable manner by Mr. McKenzie in due time.

Provide Home for Lepers

The late Lord Strathcona by a codicil to his will left \$25,000 to John Burns to provide a home for lepers in the United Kingdom.

PRISON REFORMS ARE ADVOCATED

PRISONERS COST COUNTRY ONE DOLLAR PER DAY IN EXCESS OF EARNINGS

Parole Officer Archibald Makes a Plea For Prison Labor—Impossible to Expect Good Results From a Man Who is Held at a Stone Pile

The annual report of the inspectors of penitentiaries for the fiscal year ending March 31st, 1913, was recently laid on the table of the house of commons at Ottawa, and contains a large number of interesting facts and figures. There were 1,970 convicts in custody at the end of the fiscal year, of whom 984 were Canadian born. The cost per capita ranged from \$328.24 in Kingston to \$700.58 in Saskatchewan, Alberta being \$420.46.

"The fact," reports inspectors Douglas Stewart and W. S. Hughes, "that each man sentenced to hard labor costs the country a dollar per day in excess of his earnings seems to require explanation." As remedies, they suggest (1) That the penitentiaries be administered by the minister through his responsible officers, and free from local or other external interference; and (2) that the government utilize the obligatory labor of its wards in supplying as far as possible, its own needs and requirements such as articles required for the various departments of the government.

445 Prisoners Paroled

Parole Officer Archibald reports that during the fiscal year 445 prisoners were released on parole from penitentiaries and 470 from the provincial jails. The number of cancellations for non-compliance with the condition of license was 32, or three per cent., and the number of forfeitures for subsequent conviction was 45, or 4.9 per cent.

Mr. Archibald makes a plea for prison labor. "The penitentiary," he says, "surely should be a place to qualify and fit men for usefulness in life, even if they have gone astray and this cannot be accomplished until a more sane and humanitarian system is inaugurated. It is impossible to expect good results from a man who is held at a stone pile or kept at menial labor all through his sentence."

Warden McCaulay's Report

Warden McCaulay in his annual report of the Alberta penitentiary, refers to the completion of the warden's house, the wing cell block and the foundation for the workshops, and says the brick yard has supplied all the brick necessary for the buildings. The farm supplied all the vegetables for the institution, and the coal mine furnished all the coal.

Dr. A. Forin, surgeon of the penitentiary, and the Protestant and Catholic chaplains, Rev. Dr. McQueen and Father J. A. Cullette, also submitted reports.

GEN. GREELY'S BIRTHDAY

Former Arctic Explorer 70 Years Old, Celebrated Birthday Recently

As vigorous and active as many of half his age, Major-General Adolphus Greely, famous as a soldier and Arctic explorer, has reached the seventy-fifth milestone of his life's journey. Since his retirement from active service six years ago General Greely has made his residence in Washington, D.C. Much of his time, however, has been spent in the study of aviation, military affairs and geography and kindred sciences.

More than thirty years ago General Greely attracted world-wide attention by a polar expedition, of which he was the chief. The expedition sailed northward in 1881. It contained 25 members, of whom only seven came back. Two relief expeditions failed to find the Greely party, and then finally rescued by the third expedition, sent under command of Capt. Winfield Scott Schley, the survivors of the party were nearly crazed with hunger.

Canadian Import Trade

The apparent indifference of British manufacturing firms toward the Canadian import trade, has prompted the Canadian Chamber of Commerce in London to establish a British manufacturers' section. Nearly a hundred firms, among them some of the most prominent in England, have joined the section, and it has been decided to take collective action immediately, for a trade campaign to capture the greater proportion of import trade in the Dominion of manufactured goods. Another matter that will receive early attention will be the Canadian transportation problems, taking into consideration the freight position as it will exist consequent upon the working of the Panama canal.

New Demonstration Farm

One hundred and thirteen acres will be set apart by the Southern Alberta Land Company for a demonstration farm on their new tract which is about to be opened up. The farm in question will be located 113 miles east of Bow river at Ronolane and will be in charge of an experienced irrigationist from Colorado.

Alfalfa and other field crops will be grown on the farm, of which a large portion has already been broken and leveled in preparation to receive water.

Constipation Vanishes Forever

Prompt Relief—Permanent Cure

CARTER'S LITTLE LIVER PILLS never fail. Purely vegetable—act surely but gently on the liver. Stop after dinner—distress—cure indigestion—improve the complexion—brighten the eyes. Small Pill, Small Dose, Small Price.

W. N. U. 997

Russian Biplane Largest Ever

An aeroplane so large and powerful that the first accounts of its size and performance were disbelieved by the experts, has been making a series of flights in the vicinity of St. Petersburg, Russia. Its upper plane has a span of 88½ feet and a surface of 1,400 square feet, while the total weight of the aeroplane is 6,600 pounds. It is capable of carrying besides its crew and ten passengers, enough fuel for a flight of 20 hours, and an additional load of 1,760 pounds. Four 100 horsepower motors which drive four propellers, furnish the motive power.

A young German who wished to be enlisted in the navy, but was unable to speak English, was being coached by an officer. "Look here, Mike, when the inspector comes to you he will ask you how old you are. And you must say twenty-seven years; 27 years. Then he will ask you how long you have been in the service. And you tell him three months; three months."

"His next question will be 'Are you provided with food and clothing?' And you must say both. B-o-t-h."

The following week the inspector came and walking up to the German said: "Good morning, friend, and how long have you been in the service?" "Twenty-seven years," was the answer. "Well, that's funny; I never saw you before. How old are you?" "Three months," replied the German. "Say, what do you think I am, a lunatic or a fool?" "Both," boldly answered the German. *National Food Magazine.*

Corns and warts disappear when treated with Holloway's Corn Cure without leaving a scar.

Daniel Webster was once sued by his butcher for a bill of long standing. Before the suit was settled he met the butcher on the street and, to the man's great embarrassment, stopped to ask why he had ceased sending around his order.

"Why, Mr. Webster," said the tradesman, "I do not think you would want to deal with me when I brought suit against you."

"Tut, tut!" said Webster, "Sue me all you wish, but for heaven's sake don't try to starve me to death!"

NERVOUS ENERGY IS LIMITED

There is only so much energy in the human body. A few people have an abundance, but more have not enough. Hence the necessity of conserving vitality.

If wasted by mode of living, disease or worry there must be a reckoning, and trouble is sure to come. It may be headaches and weak, aching eyes; it may be nervous indigestion; or it may be merely lack of energy and ambition, and feelings of fatigue or helplessness. Of course, sooner or later exhaustion of the nerves leads to prostration, paralysis or locomotor ataxia, but there is no need to let the trouble develop that far.

By using Dr. Chase's Nerve Food you can restore to the feeble, wasted nerve cells the energy they have lost. It will take some effort on your part to give up worry and anxiety, but you should realize your serious condition. Rest and use this great food cure and you are bound to improve in health and vigor.

Down in Texas, "before the war," an Episcopal missionary living out on the plains was aroused one night by a likely looking negro man and maid, who asked the preacher to marry them.

The missionary's wife and a guest were impressed to act as witnesses, and the ceremony began and proceeded as usual until that part or portion of the service when the groom was asked if he took this woman "for better or for worse."

At this question the groom replied loudly: "Nothin! I takes her for to cook and for wash."—Judge.

"Does your father object to kissing?" "I don't know. Shall I tell him that you would like to kiss him?"—Houston Post.

The post office department has issued notice declaring that the transmission of coin or bank notes in unregistered letters is prohibited.

DON'T HAVE RHEUMATISM

Get GIN PILLS Now

and be free of pain all winter. Mr. Robert Wilson, of Hardfield, N.B., says "It affords me great pleasure to convey not only to you but also to all sufferers from Backache and Rheumatism, the great relief I have obtained from the use of GIN PILLS. I feel thankful to you. I recommend GIN PILLS to anyone suffering as I did."

A Prolific Hymn Writer

Miss Fanny Crosby, the blind hymn writer, was 94 years old on March 24 last. It is said that she has written 7,000 hymns, the best known being: "Jesus Keep Me Near the Cross" and "Safe in the Arms of Jesus." If count has been kept carefully, Miss Crosby must have written two hymns a week since she was able to write at all.

QUICK CURE FOR HIS RHEUMATISM

ROBERT J. PYLE FOUND IT IN DODD'S KIDNEY PILLS

He Suffered for a Year, but His Return to Health Was Quick and His Cure Complete.

Bourg Louis, Que.—(Special).—How quickly Dodd's Kidney Pills will cure rheumatism and other forms of Kidney Disease when taken in the early stages is shown in the case of Mr. Robert J. Pyle, a well known farmer living near here.

In an interview Mr. Pyle says:—"Working in cold, wet weather was the cause of my trouble, and for about a year I had occasional cramps in the muscles and stiffness in the joints. I was often dizzy and felt depressed and low spirited. I was nervous and my skin itched and burned at night."

"When Rheumatism was finally added to my ills I decided to try Dodd's Kidney Pills. One box cured me completely and I had no return of my trouble."

Dodd's Kidney Pills cured Mr. Pyle's Rheumatism because it was caused by sick Kidneys. Dodd's Kidney Pills always cure sick Kidneys. If you have any two of Mr. Pyle's symptoms, you have sick Kidneys and you need Dodd's Kidney Pills.

"You've heard a lot of stories about the fool mistakes women make when they come to a bank," said a well known paying teller, "and some of them are true."

"I've seen 'em all—the woman who gets mad when we call her attention to an overdraft and then wants to write a cheque to make it; the woman whose indorsements are void—all of them."

"But the worst came in a few weeks ago. She shoved a cheque through the window without looking at me. I said:

"Madam, you will have to get somebody to introduce you before I can cash this cheque for you."

"Sir!" she answered haughtily, "I am here on business and not making a social call. I do not care to know you."

A Wise Child

"George Washington told his father the exact truth about chopping the cherry tree."

"Yes," replied the sweet, impressionable child; "George knew when he was caught with the goods, all 'ght."—Washington Star.

Shiloh 25¢
The family remedy for Coughs and Colds. Small dose. Small bottle. Best since 1870.

The author staggered home. "The jury," he sobbed, "decided that my book is not immoral."

"Never mind," said his wife, consolingly, "Perhaps you can make a success of it in play form."—New York Press.

One of Marconi's latest attempts with wireless electricity is to supply light. The reports from London say he has succeeded in lighting an electric bulb at a distance of six miles by a wireless current supplied from a hundred horsepower engine.

A Large Family

A child from a country town, visiting her cousin, who lived near an orphan asylum, wondered why so many children were there.

"Why," said her small hostess, "that is where the orphans live—lots and lots of 'em—little girls and little boys—and Mr. and Mrs. Orphan are both dead."

Internal parasites in the shape of worms in the stomach and bowels of children sap their vitality and retard physical development. They keep the child in a constant state of unrest and if not attended to, endanger life. The child can be spared much suffering and the mother much anxiety by the best worm remedy that can be got, Miller's Worm Powders, which are sure death to worms in any shape.

A tramp called at Mr. Titewad's house one morning.

"I've walked many miles to see you, sir," he said, "because people told me you were very kind to poor unfortunate fellows like me."

"Indeed!" said the old gentleman. "And are you going back the same way?"

"Yes, sir," was the answer.

"Well," said Mr. Titewad, "just contradict that rumor as you go, will you? Good morning."

BABY'S OWN TABLETS

USED FOR YEARS

When a mother uses only one medicine as long as there are little ones in the home it certainly bears grand testimony to the value of that particular remedy. Thousands of mothers use nothing else but Baby's Own Tablets. Concerning them Mrs. M. LeBlanc, Menamcook West, N.B., writes: "I have used Baby's Own Tablets for my little ones for the past ten years and know of nothing to equal them during teething time or for colic, constipation and indigestion. All my neighbors who have used them think as I do." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Rapid Descent

They had been making hay while the sun shone, and when they had finished a high haystack the boy shouted from the top:

"Say, mister, how am I going to get down?"

The farmer considered the problem and finally solved it.

"Oh, jest shet yer eyes and walk round a bit."—Pittsburg Chronicle.

Lumbago's Misery Ceases, Every Aching Muscle Cured

Just Rub on Old-Time "Nerviline"

Not necessary to drug inside! That awful stiffness that makes you yelp worse than a kicked dog will be cured—cured for a certainty, and quickly, too. Just rub on Nerviline.

Rub Nerviline right into the sore spot, rub lots of it over those tortured muscles, do this and the pain will go. You see Nerviline is thin, not oily. Therefore it sinks in, it penetrates through the tissues, it gets right to those stiff, sore muscles and irritated nerves that make you dance with pain.

You'll get almost instant relief from muscle soreness, stiffness, aching joints, lameness or rheumatism by rubbing with Nerviline. It's a soothing liniment, and doesn't blister, doesn't burn or even stain the skin.

It's the most harmless cure in the world for Lumbago, Back Strain or Sciatica. It takes away the ache at once and ends your misery quickly.

Now quit complaining—don't suffer another day—Nerviline, that good, soothing old-time liniment will limber you up mighty quick. Get busy today, the large 50c family size bottle is the most economical, of course, the trial size costs but 15c. Any dealer anywhere can supply Nerviline.

Principal Reed Honored

A very pleasing event took place at the Didsbury High School on Tuesday morning when the boys and janitor of the High School presented Principal J. Reed with a solid gold Masonic ring in honor of his 65th birthday. The boys, with the cadet corps, arrived early at the school and formed in line with Mr. Alf. Weber as bugler and Eddie Pirie as drummer; as soon as the Principal made his appearance

he was given a military salute and Mr. E. Fisher, made a neat little speech, while Ralph Wilson, Captain of the Cadets also made a speech and presented the ring. Principal Reed was thoroughly overcome but tried to show his appreciation in a short speech to the boys although his feelings would not allow him to say very much. The cadets again gave him another military salute and the bugle and drums rang out the dismissal while the school flag was run up in honor of Mr. Reed's birthday.

IF YOU WANT TO SELL your land call in and list with Reed Bros. A Patent at an early date, as we have buyers coming.

I have some very desirable revenue producing property in the City of Calgary for to exchange for farm property in the Didsbury District. Also am receiving enquiries for farm land from prospective buyers. List your farms. Remember I have \$100,000 to loan on farm property. Old mortgages taken over and more money advanced. Come in and get some of this stuff. G. B. Saxman.

Get your chicks on grass range as soon as possible. Green feed is necessary to rapid growth.

Open Every Saturday

E. B. SHANTZ, Salesman,
The Farmer's Harness Store

AROUND THE TOWN

(Continued from page 1)

Mrs. Schultz, daughter of Mr. and Mrs. John Metzger, who lives across the Red Deer River, east of Didsbury, died on Sunday morning, May 3rd. Her mother, Mrs. J. Metzger, left for her daughter's home on Sunday. The cause of death was accidental. It seems Mrs. Schultz tripped and fell over a chair on Saturday last, and injured herself internally with the result that she died on Sunday as stated above.

The Y.P.A. of the Evangelical church last Tuesday evening was the scene of a pleasant surprise in the form of an address, expressing much of estimation and a high regard, accompanied by a handsomely filled purse to Miss Esther Martin who will shortly

accompany her parents to their new home of "Ministerial labor" at Prussia, Sask. Miss Martin has been active and faithful in her various channels of church work, and will be much missed in her former sphere of usefulness, especially so in service by the choir.

The regular meeting of the W. C.T.U. will be held in the Evangelical church on Tuesday, May 12th, at 8 o'clock.

Reports of our District Convention (to be held at Camrose this week) will be given by Mrs. F. Sick and Mrs. J. Mjolsness. Also a paper on "Weak points in the W.C.T.U." Owing to her removal from town the resignation of Mrs. Daum as President will be tendered and dealt with at this meeting. All ladies are cordially invited to be present.
